

Miracle Detail - Heading font options

Body text stays just on every option (as agreed). Only the headings change: hero title, section title, card title and the small figures. Option 0 is what the site uses now, shown for comparison. Options 7–9 test the Patek Philippe direction (Monotype Grotesque); it is a paid font, so free look-alikes stand in for it.

0 - Now: Bodoni Moda CURRENT high-contrast serif - hairlines disappear on dark and over photos
