Miracle Detail website: what we still need from Paul

Updated 13 October 2026

Every page of the new site is built, with Paul's own words used as written. This list holds only what is still open. Each item names the page and the place on it, so you can reply next to it.

---

1. Prices

These lines still read "From £???" on the site, as they do on the staging site. For each one, please send a price, or tell us to show "Price on request" or to hide the line.

Page	Where	Item
Paint correction	Five levels	Level I Enhancement Polish
Paint correction	Five levels	Level II Light Correction
Paint correction	Five levels	Level III Full Correction
Paint correction	Five levels	Level IV Advanced Correction
Paint correction	Five levels	Level V Concours Perfect
Window tinting	Film options	Standard Dyed Tint
Window tinting	Film options	Chameleon Tint
Window tinting	Film options	Windscreen Tint
Window tinting	UK legal requirements	The price under the VLT list: what is it for?
Bodyshop & paint repair	What's available	Panel Repair
Bodyshop & paint repair	What's available	Single Panel Respray
Bodyshop & paint repair	What's available	Full Respray
Ceramic coatings	Ceramic by Paul Dalton	The coating applied at Miracle Detail
Mobile detailing	"Same standard. Different postcode."	The price under it (for work abroad?)

Also:

- **Ceramic coatings, the Feynlab range:** only Heal Lite has a price ("From £2,000 + VAT"). Should Original, Ultra, Self-Heal Plus and Industrial have prices too?
- **Packages, Wheel ceramic coating:** it shows no time or price yet. The ceramic page says from £200 + VAT (1 year) and from £300 + VAT (3–5 years). Should Packages show the same, and how long does the job take?

---

2. Words we need

Page	Where	What we need
Leather restoration	Areas covered	One line each for **Door Cards**, **Dashboard & Steering Wheel** and **Centre Console & Armrests**. On the staging site these three carry lines about PPF film brands by mistake, so only their names show for now.
Paint correction	The four-step process	A heading. On the staging site this section repeats the heading of the five levels above it.
About Paul	New to detailing?	The text for **"Paint looks dull or hazy"**. On the staging site it repeats the section's opening paragraph.
About Paul	Figures under the hero	The staging site shows "10,000+" labelled "Years in the trade". Should it read "Cars detailed"? It is hidden until you confirm.
Window tinting	The chameleon effect	"On a windscreen it is particularly effective" has no full stop. Is part of the sentence missing?
Window tinting	Film options	The heading says "Two films", but three options are listed. Keep it as it is?
Every page	Footer	A **privacy policy** and **terms**. The booking form collects names, phone numbers and photos, so the site needs a privacy notice before it goes live.

3. Quick questions

A yes, a no or one word is enough for each.

1. **The code MIRACLE.** We show it as a Feynlab discount code, entered at checkout on feynlab.co.uk (Aftercare guide and Ceramic page). Is that right? Is there a direct link to Ceramic by Paul Dalton on the Feynlab site?
2. **Aftercare product links.** The "Buy from…" buttons go to each shop's home page (Feynlab, Garage Therapy, Clean and Shiny). Do you have links to the exact products? And where should Buckets, Grit Guards, Wheel Brush and Barrel Brush link to? They are named in the steps but have no product card.
3. **Aftercare heading.** The eight steps are headed "Eight steps. Every wash." (our words; the staging site had no heading here). OK?
4. **Gallery heading.** "From the archive." (our words; the staging site's Gallery page is empty). OK?
5. **Dry ice before & after.** Your four collages are captioned "A gearbox, under the car", "A transmission casing, up close", "A steering rack and its clamp" and "Steering rack and subframe". Are those right, and which cars were they?
6. **About Paul, 2025.** This entry says "The coating launches in 2024". Should it sit under 2024?
7. **Homepage "Underside Coating" card.** There is no underbody page, so it opens the Industrial Coating card on the ceramic page. OK?
8. **Contact.** There is no contact page, so "Contact" goes to the booking form. OK, or would you like a separate page?
9. **Leather photos.** Who is the technician spraying the black seats of the Porsche 911 in the "leather before and after" folder? May we show him, and should he be named?

4. Photos

Needed

Page	What we would like
Leather restoration	A photo of you on a leather job, for the top of the page. It still uses the old site's photo.
Window tinting	Photos from your next tint job: the film squeegeed onto the inside of the glass, the edge being trimmed, a VLT meter on the glass, and the car before and after from the same spot. A chameleon windscreen if you have fitted one. Nothing of bulletproof film, which must stay confidential.
Paintless dent removal	On your next PDR job, close up under the light board: the dent with the board's lines bending round it, and the tool working the dent as the lines straighten. Also a small ding, hail damage and a larger dent before repair. Some of these steps show realistic computer-made pictures until we have yours.
Paint protection film	Your own gloss, matte and colour PPF jobs. The Gloss / Matte / Colour comparison is a computer-edited demonstration for now.
Paint correction	A decontamination photo (iron fallout remover or clay). A larger photo of your own paint depth gauge. And which of the six cars shown under "The work" had paint correction?
Wheel refurbishment	Before and after photos of a few wheel jobs, the same wheel from the same angle, and the car each one came from. Only one real pair exists so far.
Mobile detailing	The Porsche GT3 RS you detailed in Portugal in 2020. A GT3 RS from your old gallery stands in for now.

Nice to have

- The original, full-size files of the photos at the top of each page (4K if you have them).
- More photos of the new Lingfield studio.
- The van at a client's home.
- Newer jobs for the Gallery, with a line or two about each car. Should the "50/50s" collection stay?

5. Business details

Please confirm these, as the site shows them:

- **Address:** Unit 10, Jesmor Trading Estate (as Google has it). The old site said "Unit 8–9 Jesmor Farm".
- **Email:** info@miracledetail.co.uk
- **Google rating:** 5.0 from 139 reviews (1 October 2026).
- **Prices:** shown "+ VAT". We can switch every price to include VAT in one step if you prefer.
